

## GARFIELD'S REPORT SUBMITTED TO CONGRESS THURSDAY

It Presents in Detail Evidences of Rebating by Which the Standard Oil Company Has Been Enabled to Crush Out All Competition.

Washington, May 17.—The full report of Commissioner of Corporations Garfield regarding the relation of the Standard Oil company with the great railroads of the country, a synopsis of which was sent to Congress by President Roosevelt May 4, was made public today. It was delivered to Congress, accompanied by a formal letter of transmittal from the President without comment. The document consists of 800 printed pages, about 250,000 words.

It presents in detail the evidences of rebating and secret rating by which the Standard has been able to crush out competition and pile up inordinate profits. The most interesting features of the report are reproduced in a special letter from Garfield to the President, designed as an answer to the Standard's defense issued shortly after the publication of the original summary.

In this letter Garfield says: "Messrs. Rogers and Archbold, officers of the Standard, are quoted as saying:

"If the New England roads ought to pro-rate, but refuse to do so, it must occur to some one somewhere, that perhaps the New England roads and not the Standard are blameable."

"As shown in chapter III. of the report the Standard for years has enormously benefited by the refusal of New England roads to pro-rate, and a representative of the New York, New Haven & Hartford system states that the Standard 'wanted the road not to pro-rate.'"

"Messrs. Rogers and Archbold are quoted as saying, regarding the Whiting St. Louis rate:

"It is quite true that having our oil at Whiting and desiring to transport it to points in the interior of Illinois, we used the state rates."

"As shown in chapter VII. of the report all shipments for Whiting into Illinois, are inter-state. The mere inclusion of Whiting into the Chicago switching district, by an application sheet does not make Whiting an Illinois shipping point. As shown in the report the Standard has used the location of Whiting for the purpose of claiming the railroad to use either Indiana state rates or Illinois state rates as best suited its convenience. The railroad way bills show that the Standard directed that hundreds of these cars billed from Whiting to East St. Louis without unloading and the railroad records show that hundreds more went on without unloading to many parts of the southwest, which fact the Standard necessarily knew."

"Messrs. Rogers and Archbold say further:

"The case of the shipment from New York to Vermont is susceptible to like explanation."

"As shown in chapter III. of the report both the Standard as shipper and the railroad as carrier were aware that the secret rate from Olean to Rochester was used for through shipments to Vermont, and the Standard traffic officers were aware that secret rates were used on shipments from Burlington to points in Vermont on oil moving direct from Olean."

"Messrs. Rogers and Archbold are quoted as saying:

"Again he (the commissioner of corporations) has no control whatever over state rates, which by the law are put under the jurisdiction of the state authorities and over which the bureau of commerce nor the inter-state commerce commission have any control. But all of this aside, there have been no secret rates nor unlawful discriminations in the interests of the Standard."

"Attention is invited to the use, in connection with clearly inter-state shipments of secret 'state' rates from Olean, N. Y., on oil destined to Vermont, from Burlington, Vt., on oil coming from Olean, N. Y., from Whiting to Evansville, Ind., on shipments destined to the south, and from Whiting to East St. Louis and St. Louis, many of which shipments continued without reloading into the southwest, also to the secret rate combination by way of Grand Junction, Tenn., and by way of Alexandria, La., and to the many instances of secret rates and direct rebates in California, the latter being shown in chapter IX. of the report."

Garfield's letter also contains answers to statements made on behalf of the railroads in reply to his original allegations as published in the summary.

Quoting the denial of Vice President Thayer, of the Pennsylvania railroad, that the special rate from Olean to Rochester applied to anything but crude oil and unfinished products and his statement that the

rate was not and never had been secret, Chandler says:

"The rate of 9 cents a barrel was approved by J. B. Thayer Jr., March 10, 1902, and applied to 'petroleum products.' This rate was unknown to independent shippers and there were printed at the top of the rate order in capital letters and underscored, the words: 'Not to be posted.'"

Answering J. W. Blabon, freight traffic manager of the Chicago and Alton railroad, who said the six cent rate to East St. Louis, Ill., did not apply from Whiting, Ind., but from Capell, Ill., Garfield states that the evidence procured by him shows that the East St. Louis shipments were not state shipments as alleged, "but were in fact carried through from Whiting to East St. Louis, or St. Louis, or points beyond, and that the records of each of the roads hauling this freight showed that the agents and officers of such roads knew of the interstate character of the traffic."

George Crosby, freight traffic manager of the Chicago, Burlington and Quincy railway, was also quoted as saying that the rates complained of by the commissioner of corporations were not interstate rates. Garfield replies:

"The records of the Chicago, Burlington and Quincy show that the six cent rate was applied on hundreds of cars which moved from Whiting to East St. Louis and St. Louis, as shown directly on the way bills."

J. T. Harahan, second vice president of the Illinois Central railroad was quoted as saying that all oil rates on his road were open and that there had been no discrimination in favor of the Standard. To this statement Garfield replies:

## CIRCUS METHODS TO BE FOLLOWED BY THE U. S. ARMY

Secretary Taft Details Officers to Study the Ways of the Barnum & Bailey Show.

Washington, May 17.—Secretary Taft has detailed Major I. W. Littell, quartermaster's department, and Captain James A. Logan, commissary department, to study the methods employed in transporting and feeding the numerous employees of the Barnum & Bailey show, with a view to the adoption of any worthy ideas into the army transport and commissary service. The officers will accompany the show in its travels, the first named going as far as Ohio and the latter to Wheeling, W. Va.

## SIX MEN HURT IN EXPLOSION

Scranton, Pa., May 17.—Six men were badly burned by an explosion of gas in the Diamond mine of the Delaware, Lackawanna & Western railroad this morning. The victims are John Galisky, Edward Owens, John Kelly, Thomas Reese and Anthony Shonokis and John Reaserburg. The men were engaged in placing carriage "fans" in the shaft. Owens walked into a pocket of gas and an explosion followed. All the victims were badly burned and rendered unconscious by the force of the explosion. They were removed to the surface and taken to hospitals and their homes.

## BLEW HEAD OFF WHEN THE OFFICERS TOOK HIS WIFE

Terrible Tragedy Thursday in Franklin County in Which John Merz Commits Suicide.

Columbus, May 17.—John Merz, 55 years of age, a farmer living in Millin township, blew his head off with a shot gun today as deputy sheriffs left his home with Mrs. Merz to take her back to the State Insane Hospital from which she was recently released upon probation. Wednesday Merz complained to the sheriff that his wife had again lost her reason and asked that she be taken to the asylum. The neighbors say that Merz has been drinking lately and did his wife an injustice in claiming that she had again gone insane. He leaves seven children.

## EXILED KING OF DAHOMEY LEAVES WEST INDIES FOR AFRICA.

Behanzin, exiled king, and his three wives and two daughters.

Fore de France, Martinique May 17.

Behanzin, the former king of Dahomey, who has been interned here since 1894, took passage on the French steamer Martinique for Bordeaux, from which place he will continue to Blidah, Algeria, and there remain a prisoner, close to that other royal captive, Ranavaloa, Queen of Madagascar.

The life of the old warrior here was a sad one, notwithstanding the fact that his three wives, two daughters and only son were his constant companions, and the further fact that his movements in Martinique were not restricted. He was free to move about yet while the possibilities of escaping from the island were remote, some one, whose business it was to know, could always account for him. He was often seen driving out accompanied by his favorite wife and Prince Wanjo. Once each month he appeared at the Governor's to receive the allowance made him by the French government. He always appeared in public attired in his kingly robes.

The government allowed him a house, too, where he and his family lived. He made many requests to be returned to Dahomey, and his exiled condition moved many to intercede for him. The population sympathized with him, officials pleaded his cause and for years political journals of the colony have teemed with editorials bewailing his sad position. Finally the Minister for the Colonies compromised and consented to his transfer to Algeria.

Behanzin never liked any of the fea-

tures which other people find so charming in Martinique. When he was brought here, after the end of that memorable campaign in West Africa, when his warriors cut up whole companies of the French soldiers, he was confined for a time in Fort St. Louis. It was thought he would be more reconciled if given more liberty, so he was allowed much freedom. During the volcanic disturbance of Mont Pelée, in 1902, he was very restless,

and his discontent was marked during the recent seismic movements. Of the thousands of tourists who came to Martinique many were more anxious to see Behanzin and hobnob with royalty than to look upon the many scenes of beauty and interest for which the island is justly celebrated.

The exiled king returns to Africa, but not to his own country. In Algeria he will still be an involuntary exile.

country that he, the President, had made a great personal triumph.

The correspondents did nothing of the sort. They could put two and two together, and most of them knew much more about the rate question than the President did. Instead of putting up loud shouts of "Victory!" most of the correspondents said that in their opinion the President had surrendered, foot, horse and dragons, to the railroad interests. And he did.

## THE GOLD BRICK SOLD TO ROOSEVELT

That Entrapped Him and Won the Railroad Victory in the Rate Bill—Sad Spectacle the President Makes Before the Country.

Washington, May 17.—President Roosevelt's amazing gyrations on the railroad rate bill no longer interest the Senate. The Senators are letting him severely alone. They are through with him.

This does not mean the Aldrich followers. They have been against the President since the agitation began. It includes the Democrats, with whom the President made a combination not long ago, and the Dilliver and Long followers, who had an idea they were doing the President's bidding, but were thrown overboard when the President bought the gold brick from Senator Aldrich in the shape of the original Allison amendment.

The President's performances on this question since it came before the Senate have been acrobatic even for him. He first announced himself for the Hepburn bill as it came from the House without amendment. Dilliver, Long, Clayton and some others stood with him. The president told them he would give them undivided support. One day he surprised everybody by calling in the correspondents of the Republican newspapers and indicating a few amendments to the bill that he would accept. This rather flabbergasted the Dilliver faction, but they recovered and went to work again, after the President's assurances that he was with them.

Later the Bailey amendment, denying the right of injunction to the courts, began to make trouble. The President thought this amendment was a good thing. He committed himself to it in writing. Then he urged a combination with the Democrats and the Dilliver followers on the Republican side to pass through the bill with the amendment. He had previously accepted and such reasonable amendments as the Democrats wanted. There was a conference of Democratic Senators at his request to bring this about. The Democrats nearly all fell into line, although the conference made no decision.

Meanwhile the were working the necessary vote amendment. The President's performance on this question since it came before the Senate has been acrobatic even for him. He first announced himself for the Hepburn bill as it came from the House without amendment. Dilliver, Long, Clayton and some others stood with him. The president told them he would give them undivided support. One day he surprised everybody by calling in the correspondents of the Republican newspapers and indicating a few amendments to the bill that he would accept. This rather flabbergasted the Dilliver faction, but they recovered and went to work again, after the President's assurances that he was with them.

The President summoned the editors of newspapers and told them to then for two hours, telling them the gold brick was sold to him. He stated his position a dozen different times. He expected the correspondents would hurry away and tell the people of the

## "ROOSEVELT'S SURRENDER" TITLE OF NEW SONG

To be Sung to the Tune of "Bonaparte's Retreat" Suggested by Senator McLauren.

Washington, May 17.—Consideration of the railway rate bill in committee of the whole having been concluded, the measure was reported to senate, where there will be opportunity to review and after all the amendments heretofore made. Practically the entire session was devoted to consideration of the anti-pass amendment, which was adopted after making so many exceptions as to arouse laughter in the senate every time the provision was read.

Senator McLauren presented an amendment to the rate bill prohibiting greater charges for short than long hauls, and Senator Daniel moved a substitute to cover the situation in Virginia. Both senators spoke in support of their respective provisions, and Mr. McLauren entered upon a general criticism of the president's course in connection with the rate bill. He declared that the president had entirely changed his position, and predicted the production of a new song to be known as "Roosevelt's Surrender" and to be sung to the tune of "Bonaparte's Retreat." Mr. Daniel's substitute was then voted down and the McLauren provision immediately lost a like fate.

## HEROES' MEDALS ARE AWARDED BY THE CARNEGIE COMMISSION

A Girl Saves a Young Boy's Life by Applying Her Lips to a Rattlesnake Bite—Several from Ohio Receive the Reward of Bravery.

Pittsburg, Pa., May 17.—The Carnegie Hero Fund commission at its meeting Wednesday awarded 26 medals for bravery and distributed \$10,500 among a number of the recipients of the medals. The most unique case investigated by the commission was that of Miss Lucy Ernst of Philadelphia, who was awarded a silver medal for saving the life of Harry Schoenhut, a 10-year-old boy who was bitten by a rattlesnake. They were out in the woods together when the snake struck him on the arm. Miss Ernst immediately applied her lips to the wound and sucked some of the poison from it and then took the boy's pocket knife and cut away the flesh about the wound. She then helped him to the Porter's Lake Hunting and Fishing club. Four hours later, when a physician arrived, the boy was out of danger. Miss Ernst was ill for a week. A fever sore which she had on her lip at the time made her act all the more courageous and dangerous.

On February 16, 1906, about 5:30 p. m., at Elyria, Ohio, Walter H. Murbach, aged 22 years, a machinist, rescued John I. Allen, aged 13 years, a schoolboy, who had broken through the ice on the west branch of Black river in an attempt to save a companion. It was necessary for him to break ice in front of him as he swam, and after going about 30 feet he became too weak to continue and returned to shore, where a frame door about four by six feet had been obtained by others, and supported by this Murbach returned to the rescue, a distance of 90 feet, when he placed Allen on the door and swam with it back to the shore, having been in the water 30 minutes. The temperature was 20 degrees above zero, the water from 10 to 14 feet deep, covered with ice about an inch thick. He is a son of one of Elyria's substantial citizens. He was awarded a silver medal.

On March 2, 1905, east of Clifton Station, Pa., on the P., Ft. W. and C. R. R., the third section of a passenger train ran into the second which was hauling a battalion of engineers of the Ohio National Guards from Cleveland to Washington. William J. Wild of Cleveland, in response to cries for help, returned through smoke and darkness and carried out three men before he fainted from exhaustion. An attorney for the claim department of the railroad settled Wild's claim for \$750, and also presented him with \$500 in recognition of his saving the lives of his comrades. He was awarded a bronze medal.

On June 17, 1905, about 4:15 p. m. Harry E. Moore, aged 38, a railroad conductor of Alliance, Ohio, jumped from the engine of his train and ran to the rescue of Farmer Miller, aged 55, a coal miner, of Amsterdam, O., who was lying on the track of the

Lake Erie, Alliance and Wheeling railroad, about three-quarters of a mile north of Amsterdam. The speed was about eight miles an hour when Moore jumped on the track in front of the engine about 40 feet from the man and ran toward him, but was overtaken by the engine and knocked to the side of the track, the wheels passing over a portion of his left hand necessitating amputation. Miller was killed by the engine. Moore was awarded a bronze medal and disability benefits in the sum of \$500.

On April 20, 1905, about 9 p. m., on Lake Erie, at Ashtabula Harbor, Ohio, the 73-foot sea-going tug Thomas Wilson, in charge of Timothy E. Heagerty, aged 41 years, pilot, of Ashtabula, went to the rescue of the officers and crew of the schooner Yukon, which lay helpless about one mile from the harbor, her tow line, which was attached to the steamer Osborne, having parted during the storm, which is said to have been the heaviest gale ever experienced on Lake Erie. The wind was blowing about 58 miles an hour, and the waves were about 14 feet high. In putting out from the harbor the Thomas Wilson was compelled to go in the trough of the sea. Lifeboats could not be used in taking the men from the schooner to the tug, and it was necessary to steer the tug close enough to the Yukon to enable the men to jump from one boat to the other.

The maneuver was made three times before the six men succeeded in getting aboard. In the last attempt a portion of the gunwales on the starboard side of the tug was broken by coming in contact with the Yukon. Captain Heagerty is regarded as one of the best navigators on the lakes. His only source of income is his salary. His family consists of his wife, and two children, aged 7 years and 3 months respectively. His home is mortgaged for \$1,200. He was awarded a silver medal and the sum of \$1,200 for the purpose of liquidating the mortgage on his property.

At the same time and place and in the same rescue, Robert W. Simpson, aged 46 years, steamboat engineer, of Ashtabula, O., very faithfully performed his duties at the engine and shared the common peril with the Captain, and other members of the crew. His family consists of his wife and one child, 10 years of age. He owns a home in Ashtabula free of incumbrances. He was awarded a bronze medal and the sum of \$500.

At the same time and place, and in the same rescue, Michael Sasso, aged 22 years, steamboat fireman, of Ashtabula, O., very faithfully performed his duty. He is one of the two who stood on the deck while the waves were sweeping over the decks and assisted the men as they leaped from the Yukon. He has a wife but no children, and is dependent on a salary. He owns no property. He was awarded a bronze medal and the sum of \$500.

## APPROPRIATION WOULD BUILD A MONSTER WARSHIP

Washington, May 17.—The naval appropriation bill, carrying nearly \$100,000,000, was completed in the house after one of the busiest sessions of the present congress. The debate grew out of an attempt to defeat the appropriation for the largest battleship of its class in the world, and the tenor of the speeches for the big ship was that the American republic must be abreast of the nations of the world in the strength of her navy. The opponents talked for peace, disarmament and arbitration, and insisted that there was no national need of such a large navy. The amendment introduced by Mr. Burton of Ohio to strike out the appropriation for a rival to the English Dreadnaught was defeated, as was the amendment leaving the construction of the battleship to the discretion of the secretary of the navy after the second Hague conference. The sum of \$6,000,000 is appropriated for the gigantic battleship, exclusive of armament and armor.

DESTROYED BY FIRE.  
Macon, Ga., May 17.—The Atlantic Compress company's plant was destroyed by fire this morning.

NOT COMMON CARRIERS.

Washington, May 17.—The Senate defeated the attempt to have the gas pipe lines made common carriers.

## SEA LEVEL CANAL IS NOW FAVORED BY COMMITTEE

Washington, May 17.—The decision of the senate committee on inter-oceanic canals is in favor of a sea-level canal across the isthmus of Panama. Senator Carmack's return from Tennessee gave the sea-level advocates a majority of one vote, and consequently Chairman Millard was the only one of the minority faction who attended the meeting. There was no other business before the committee, and it remained in session just long enough to authorize Senator Kittredge to make the report to be presented to the senate as soon as the minority may have an opportunity to present their arguments for a lock canal. Two reports will be made at the same time. The vote was made on a resolution on the report by Senator Kittredge, declaring it to be the sense of the committee that the construction of a sea-level canal can be recommended. On the motion the affirmative votes were Messrs. Platt, Kittredge, Ankeny, Morgan, Carmack and Tallaferro. Chairman Millard voted in the negative. Senators Knox, Hopkins, Simmons and Dryden were not present. All of these are supporters of the lock type.

Standard Oil company announced an additional advance in the selling price of gasoline. The 70 to 72 degree gasoline is advanced one-half cent per gallon, while the other half grades are put up one cent per gallon.

DECLINES TO RUN FOR CONGRESS

COLONEL KILBOURNE ISSUES A SIGNED STATEMENT ON WEDNESDAY.

The "Marrying Squire" is Dead—A Buggy Company Quits—News of Ohio in Brief.

Columbus, O., May 17.—In a signed statement Colonel James Kilbourne declined to become a candidate for congress.

Sheet Workers' Scale. Cincinnati, O., May 17.—The finishing touch was given to the wage scale which the Amalgamated Association of Iron, Steel and Tin Workers will ask their employers to agree to for the coming year. The committee having in charge the scale for sheet workers submitted a report to the convention providing for some minor changes in the scale of last year, but leaving the scale substantially as it was. The changes were accepted by the convention on the statement that the result of them would be to all intent the same pay as the men have been getting.

Urges Federation. Marietta, O., May 17.—The discussion of the proposed uniting of the Methodist Protestant, United Brethren and Congregational churches clearly demonstrated the fact that the association of Congregational churches is much in sympathy with the movement. The committee on resolutions was instructed to draft a resolution showing the association is in unanimous sympathy with step. This action will be presented to the national bodies, to be considered in their decision. Rev. C. W. Carol of Cleveland was elected moderator.

Dolliver at Oxford. Oxford, O., May 17.—Hon. J. P. Dolliver, United States senator from

Iowa, will deliver the annual address to the graduating class of Miami university on June 14. Professor Faucett Cotton, superintendent of public instruction in Indiana, will address the graduating class of the normal college. Hamilton Wright Mable of New York will be the commencement orator at Western College for Women.

Woman Assaulted by Tramp. Cadiz, O., May 17.—A tramp stopped at the residence of Mrs. Will Jones of Cadiz Junction, and while being served with something to eat he struck the woman with a vinegar jug, and after searching for money assaulted her, leaving her insensible. He is being pursued by armed posses. Mrs. Jones was married recently, and is but 16 years of age.

Buggy Company Quits. Cincinnati, O., May 17.—The Highland Buggy company, which was the successor of Anderson & Harris, made an assignment for the purpose of liquidation. The assets are placed at \$110,000 and liabilities at \$90,000. Lack of working capital is given as the reason for wanting to go out of business.

Marrying Squire Dead. Hamilton, O., May 17.—Squire Thomas McGreevy, known as the "marrying squire," having married more than 2,000 couples during 20 years, died in the hands of men who were carrying him to an ambulance for removal to a hospital. He was a prominent Elk.

Baker's Violent Death. Hamilton, O., May 17.—While Otto Eppler, a baker, was operating his dough mixer, his hands were caught and he was drawn into the machine. His neck was broken and he died immediately.

Losing Money Daily. Hamilton, May 17.—The report of William E. Mayer, the Philadelphia expert brought here to inspect the city gas works, shows the city gas works is losing \$65 per day in operation. He recommends that the plant be immediately shut down and rebuilt at an expense of \$65,000.

EVIDENCE PRESENTED BY SEN. BAILEY

Tending to Discredit the Published Statements That Had He Had Acted Treacherously.

Washington, May 17.—Senator Bailey today presented in the Senate documentary evidence in his possession tending to discredit the published statement that he had acted treacherously to his party and had attempted to prevent effective railroad rate legislation.

On seeing these publications yesterday Bailey wrote to ex-Senator Chandler as follows:

"Partisan Republican newspapers are charging that you have at some time written a communication to the President or to some members of his administration, impugning my good faith with reference to the pending railroad rate bill. I would thank you to send me a copy of any communication which you have made to the President or to any member of his administration, and which could possibly have been made the basis of any such charge."

Chandler's reply, enclosing his memorandum to the President, his letter to Secretary Loeb and an extract from his diary, is:

"I have your letter and I enclose to you a copy of a memorandum sent by me to the White House April 11. I think the memorandum was not dated but my retained copy is dated April 11. I did not therein give the President any assurance as to your attitude relative to the so-called game, because I had not seen you, and did not feel authorized by anything Senator Tillman had then said to give any assurance in your name. At 9:15 a. m. I saw Tillman and talked with him fully, and he told me that neither he nor your self were entering into games with the railroad senators, and at 9:30 I saw the President and told him what Tillman had said, and that he need have no apprehension on the subject. I enclose to you copies from my diary. 'April 13.—I saw Attorney General Moody, and again the 14th, and arranged with him to see Tillman and yourself on the next day, Sunday.' The memorandum to the President from Chandler was as follows: 'The game of the railroad senators is to support Bailey's amendment and induce him to agree to a broad right of review. What this is to be is not certain, but the principal object is to 'beat him,' meaning the President—Tillman, however, considers himself as acting with the President to pass the review clause with the minimum amount of court-

power, and will not enter into any such game."

Chandler's note to Loeb was: "Please hand this to the President privately. I am hearing an important case all day today, but could see him if he wished to see me at 1 o'clock."

The extract from Chandler's diary was: "April 11, at 9:15 p. m.—Saw Tillman at Colonial about railroad rate legislation. At 9:30 at White House saw President alone upstairs, talked of railroad rate and many other things for more than an hour. He was very gracious. At about 10:30 to Colonial with Tillman until 11:45."

It will be noted that the date of the Chandler memorandum to the President, April 11, was two days before the Chandler-Tillman negotiations with the President had been opened. Within those two days Chandler had ascertained that Bailey was not working with the so-called "railroad senators," and so informed the President, who thereupon directed Moody to open negotiations with Bailey as to the constitutionality of his no-injunction amendment. This he did April 13 and 14, and Bailey's active participation in the conference dates from that time.

Senator Bailey said among other things: "The president did not consider Mr. Chandler's memorandum an impeachment of good faith for three days after he asked me to confer with the attorney general on the legal point in this controversy. I have no words to express my contempt for a man who treats with others whom he suspects of treachery and none but a traitor would do so."

"I know the fortunes of war. A man in the forefront must bear his brunt of the battle and I am willing to take my share. I know that war means killing. If it be civilized warfare I shall not complain. At this time when the spirit of square dealing is more on lips than in hearts, even political opponents should at least fight with the common fairness of prize fighters. They ought not to strike below the belt. 'Never before has any man charged me with double dealing and trickery. And no man ever shall without incurring my denunciation. I will brand his face with liar so all men may know him and all honest men shun him.'"

CUNNINGHAM-WILLIAMS. Miss Mary Williams and Mr. William M. Cunningham were married at the home of Mr. Cunningham Thursday morning at 10 o'clock. Rev. B. S. Boyce officiating. They were attended by Mrs. Phoebe Daniels, Miss Sarah Williams and Miss Jones. LOST FORTUNE IN SPECULATION

And the Aged Dr. F. M. McKenzie Shot Himself to Death in a Chicago Park.

Chicago, May 17.—Dr. F. M. McKenzie, a wealthy retired physician, 80 years of age, of 2257 Calumet avenue, shot and killed himself in Washington Park Wednesday having been driven to suicide by the loss of \$100,000 in stock gambling and the failure last winter of the brokerage firm of Knight, Donnelly & Co.

The aged suicide left several notes, in one of which he said:

"I do not care to live since they closed the Washington Park race track."

McKenzie, it developed, had been contemplating suicide for several days. E. T. Richardson, a druggist at Twenty-second street and Cottage Grove avenue, told the police that early in the week the physician had tried to buy prussic acid from him. He refused to sell him the poison because he could give no good reason for purchasing it.

The dead man was well known on La Salle street, but had few intimate friends. He had speculated in stocks for years, and had been fortunate up to last winter, when the Knight-Donnelly crash came, sweeping away \$75,000 of his fortune.

Since then he had bought stocks through S. F. Chapin & Co., and his losses, while not large, had been continuous. McKenzie was formerly house physician at the Lexington Hotel. Before he lost his money, his acquaintances say, he was constantly engaged in novel philanthropic deeds. It is said that he paid the expenses of three young men through the Chicago university.

WORK WEAKENS THE KIDNEYS. Doan's Kidney Pills Have Done Great Service for People Who Work in Newark.

Most Newark people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Newark cures prove it.

Wesley Rowland, express driver, living on Washington St., near Mill St., East Newark, O., says: "Many a time my back pained me so and was so weak that I could not load my wagon. If I stooped to pick up anything it was all I could do to straighten up. My back pained me so at nights that I could not sleep. I would wake up again with terrible pain through the back and shoulders as if I were in a clamp. I tried liniments and various remedies but found nothing that helped me until I got Doan's Kidney Pills at Cravon's drug store. Three boxes were all that were required to cure me and the cure has been permanent. That was two years ago and I have had no trouble of the kind since."

For sale by all dealers. Price 50 cents. Foster-Milbur Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

The original "chauffeurs" were disguised robbers who, toward the end of the eighteenth century, operated in the French rural districts. They got the title from the practice they had of roasting the soles of their victims' feet at a fire to force the revelation of hidden treasures.

## MUST NAME PRICE FOR WATER WORKS

**Ultimatum by Public Service Board to New Owners of the Plant—Next Monday Fixed as Date When Price Must be Named.**

A ultimatum issued from the board of public service office went out last night to Mr. Verrill, the eastern gentleman who purchased the old water works at public sale Tuesday. This ultimatum told Mr. Verrill that it was up to him to set a price on the old plant and to do it quickly. A copy of the letter follows:

"Newark, Ohio, May 16. Mr. H. M. Verrill, care of F. M. Black, attorney, city.

"Dear Sir:—The Board of Public Service of the City of Newark, Ohio, after carefully going over the water works situation, has come to the conclusion to give you until Monday, May 21st at noon to offer a proposition to sell to the City of Newark, Ohio, the plant of the Newark, O., Water Company as purchased by you, by stating the lump sum you will take for the same.

"Yours respectfully, "THE BOARD OF PUBLIC SERVICE" Christian, M. M. Taylor, James McVeigh."

According to the statement made by Mr. Verrill, when he consulted with the board Tuesday afternoon he will hardly be prepared to set a price upon the plant so early as next Monday. At that time he stated that he did not know what the plant was worth and could not say what he would be willing to take for it. Therefore, he will hardly have time to get an appraisal of the plant before the date specified.

The members of the board of service hold that Mr. Verrill should have come to Newark prepared to set a price upon the plant. They state that on April 18 word was sent to Mr. Verrill through his attorney, F. M. Black, that the board would consider the advisability of purchasing the old plant from the highest bidder after the sale on Tuesday. Then the buyer comes prepared to offer \$230,000 for the plant if necessary but is not prepared to

state what he wants for the plant from the city after it has been bought. Mr. Verrill's attorney, Mr. Black, was out of the city today when an interview was sought, so no statement could be secured from him as to the probable reply of his client.

## FILTRATION ENGINEERS

Sent by State Board of Health to Inspect Newark Water Works Systems Today.

The State Board of Health is again becoming interested in the water works situation in Newark and today Chief Engineer Pratt and Assistant Engineer Burgess of the State Board of Health came over from Columbus to make inspection of the filtration plants of both the old and new water works systems.

As there is no filtration under construction at the proposed new plant there was nothing for the engineers to do in connection with that property.

The engineers thereupon made an inspection of the filtration plant at the old water works system, after which they returned to Columbus. They will make their report to the Board of Public Service, and this report will have much weight with the proposed purchase of the old plant by the city. The Board of Service is very much interested in the report of these engineers who are experts on the subject of filtration.

The Board of Service is in accord with the Advocate's statement of yesterday that any proposition to purchase the old water works by the city must be submitted to a vote of the people. The Board will not recommend the purchase by the city on any other condition than that of submission to the people for approval or disapproval.

and wife spent Sunday with Mr. James Phillips and family.

Mrs. George Stasel is no better. Miss Lottie Hall, after a week's visit with her grandparents, Mr. and Mrs. Samuel Priest, has returned to her home in Newark.

Mrs. Joel Palmer called on Mrs. James Phillips Monday afternoon.

Ernest Settles is now staying on his farm. His tenant moved to the city.

Miss Grace Reeler is spending the week at home.

## ANNOUNCEMENTS

### Of Candidates To Be Voted For at the Coming Democratic Primary Election.

The following gentlemen, whose names appear in this column under this heading, announce themselves as candidates for the offices designated respectively, subject to the decision of the Democracy of Licking county at the coming primary election:

For Congress,  
J. B. JONES.

For Sheriff,  
WM. LINKE.

W. F. HOLTON.

County Clerk  
J. W. HURSEY (second term).

County Commissioner,  
GEO. T. TAVENER, (of Eden Tp.)

Infirmary Director,  
B. D. JACKSON (second term).

The Marion Mirror says: "If any able editor—anyone located around anywhere—thinks the trusts and monopolies are such a fine thing and that their style of robbing the people is the chief thing to be thankful for in this country, let him run on that platform the next time he imagines he is a candidate for governor and see how many votes he will get." It is to be feared that the former lieutenant governor of Ohio who owns and edits the other newspaper in Marion will take this suggestion from the Mirror as most decidedly personal.

It has finally been announced semi-officially that the treaty at Algiers, for whose main making Ambassador White has been eulogized by the chèque, will not be submitted to the Senate for ratification, though article 121 requires such action by all the powers signatory. A press association in Europe is authority for the statement that Sweden and the United States expressly stipulated that they would not be bound to join in any measures which might be taken to enforce the treaty. The President has been too busy otherwise to tell the country about the Algiers agreement. But how absurd it was to send envoys there to shape a treaty involving European powers alone and then to dodge any responsibility for enforcing it. Another farcical diplomatic act must be added to the list.

Due commiseration has not yet been accorded to Attorney General Moody. His is a thankless job. He must do his best to straighten out all tangles after Mr. Roosevelt gets things mixed. That was Mr. Moody's ordeal in the packer's case, when he was forced to take a diametrically opposite position from the one he had assumed when requested by his chief to twist the law in some manner to save Paul Morton from a trial for giving rebates. He advised prosecuting the corporation when Morton was involved, but the packers when a corporation could be reached. Like Samuel Butler's puritanical country justice, Hudibras, he can change sides and still confute himself.

Terre del Fuego is the latest gold field. A stern wheel paddle boat just completed by a British firm, is to be sent to Terre del Fuego for the purpose of carrying the sand brought up by the dredger now at work in that region. Gold, it is said, has been found in great quantities. It is predicted that the river banks and beds abound with gold and that within 12 months Tierra del Fuego will be world famous as a gold producing center.

# REGRETS FOR THE PRESIDENT OVER HIS HUMILIATION

(Pittsburg Post.)

Reflection upon the scuttling of the rate regulation leaves a feeling of profound regret for the President. One must deplore the fact that Mr. Roosevelt, who had so completely won the confidence of the people as the long-awaited champion of their cause against corporate greed, who had so aroused their admiration for assured courage, steadfastness and loyalty, should so palpably weaken and finally display such susceptibility to the wiles of the very agencies he valiantly engaged to curb.

Rarely has a knight waging relentless warfare for the people's welfare been so helplessly entrapped. His long experience in many offices, his natural vigor and acuteness of mind, his fondness for higher planes of thought, all conspired to relieve the popular anxiety over any chance of his being unhorsed and having his lance shattered.

The cherished hope, the almost certain assurance, that an effective measure to control the railroads and check all their devices of extortion and monopoly would be placed upon the statute books as the achievement of a Congress, representative not of a party, but of the people, and wakened to their duty by a tribune in the White House.

No deeper regret could be enter-

tained than that demanded for the disaster that has overtaken Mr. Roosevelt and for the predicament in which he is left.

It is regrettable that a President of the United States should be so entangled by his associations or his transactions that bandying epithets with eminent fellow-citizens becomes a feature of the incident. Another twinge of humiliation is felt when the source of such recriminations is found in what appears to be the unwarranted interference by the head of one governmental branch with the affairs of another.

All Americans, proud of their marvelous system, ideal in its true working, regret that a President should so disdain the conventionalities, in fact, violate the precepts of the constitution, by virtually usurping a place on the floor of the Senate during the pendency of a bill, and casting the shadow of another prerogative over what should be the uncoerced action of that body.

It is profoundly regrettable that the enthusiasm of the cause should have induced harsh criticism of a former legal adviser, who had served him well, but who must now combat a classification, which may cripple his aspirations in the future to serve the whole people.

# MT. VERNON NEWSPAPER QUITS AFTER A SHORT EXISTENCE

The Daily Independent Which Was Started to Revolutionize Journalism in the Knox County Capital Finds That It Is Insolvent, and a Receiver is Petitioned For.

Mt. Vernon, May 17.—Joseph B. Borders, editor, on Wednesday morning filed a petition in the Common Pleas court against the Independent Publishing company, Jason J. Davis, Hucie A. Jones, The American Type Foundry Co., The Unitype Co., and E. T. Selig, asking for a receiver for the concern. A motion for the appointment of a receiver being also filed.

Borders says that himself, Jason J. Davis and Hucie A. Jones each own a third of the business and property of the Daily Independent, that Hucie A. Jones has a mortgage lien on the assets of the company, and that Davis has a claim for work as assistant editor. He says that by the terms of the partnership he and Davis were each to receive \$10 per week for their services on the paper. He says that the typefoundry company, the Unitype

company, and E. T. Selig each have a mortgage lien on the assets of the company, prior to the mortgage lien of Hucie A. Jones.

Plaintiff says that the Independent company is insolvent, and is unable to pay him his \$10 per week, amounting to \$140, and is unable to meet the payments on the mortgage liens as they become due, that it is in great danger of losing its property and assets, and that its income is wholly insufficient to meet its expenses. He asks for the orders usual in such cases.

This is the newspaper that was conceived and launched to revolutionize journalism in Mt. Vernon.

Thus it will be seen that the Mt. Vernon newspaper graveyard is growing, but it is not yet equal to the size of the one in Newark.

## Democratic Congressional Convention.

The Democrats of the Seventeenth Congressional District of Ohio will meet in delegate convention at New Philadelphia

On Wednesday, June 6, 1906, at 1 o'clock p. m., to nominate a candidate for Representative in Congress from said district. According to the basis of representation fixed by the committee, the several counties will be entitled to the following number of delegates:

Imposing Upon Old Soldiers.

Someone has been imposing upon the credulity of the old soldiers of Ohio by spreading the reports that the general assembly voted a pension of \$25 a month to each Buckeye soldier who wore the blue. Dozens of letters of inquiry have been received by the state commissioner of soldiers' claims and the adjutant general about the matter and the officials are kept busy denying the report. It would take \$30,000,000 to pay pensions of the kind mentioned. It is not known why or how the story originated.

## Judge Donahue Indorsed.

New Lexington, O., May 17.—At a meeting of the Democratic executive committee held here yesterday congratulatory resolutions on the convalescence of Governor John M. Pattison were adopted.

Delegates to the state, congressional and judicial conventions were also selected. The state delegates are P. M. Cullinan, J. E. Powell, William Snyder, James F. Delong, Samuel Alsop and Charles E. Fink.

Judge Maurice H. Donahue of this city was unanimously indorsed for a second term on the circuit bench and was instructed to select his own delegates from this county.

## IRON TRADE REVIEW

Cleveland, O., May 17.—The Iron Trade Review in its issue of today says

The record price set by tin during the past week is expected to have an early effect upon the tin plate market. Three advances in the price of tin plate during the last eight months have been occasioned by advances in steel. The present inability of mills to provide an adequate supply of sheet and tin bars, coupled with the advance in tin which amounts to 35 cents per box of tin plate, seemingly justifies higher prices for the latter product. Sheets are also in such brisk demand that an advance is being considered and already independent mills are obtaining premiums for early deliveries. In this line the San Francisco demand is heavy and municipal improvements at Philadelphia and Brooklyn will call for some 40,000 tons.

Rail sales continue at an enormous rate. It is estimated that 1,000,000 tons of steel rails for 1907 delivery are under negotiation and that fully half that tonnage has already been placed.

Labor difficulties, especially in the foundries, are having an important effect on the iron market at present and especially in the Chicago district weakness has developed. Southern irons sagging from 25 to 50 cents per ton. Basic iron is in good demand and Bessemer iron is extremely scarce especially in the Pittsburgh district, where a large consumer was unable to secure a lot of 20,000 tons for June and July delivery.

The ten days' delay in ore shipments, occasioned by the longshoremen's strike, is not expected to have any material effect on the total shipments of the season. Already the crowded harbors along the lower lakes are being well cleared and in the probable absence of further troubles with labor on the lakes shipments will proceed at an enormous rate. The amount of ore on dock May 1, 1906, was 1,741,400 tons, the smallest tonnage on dock May 1 since 1900. The total amount of ore moved Lake Erie docks from furnaces in the full year ending May 1, 1906, was 28,941,358 tons against 20,057,970 tons for the preceding year.

# BANKER SEEKS DOG CATCHERS JOB

Omaha, Neb., May 17.—This city is to have the "swellest" dog catcher of any town in the world. Alfred Millard, cashier of the United States National bank of Omaha and nephew of United States Senator Millard, of Nebraska, is an applicant for the place of dog catcher, or city "poundmaster," as the place is officially known.

As soon as the newly elected city officials are sworn in Mr. Millard will make a formal application for the "job."

Millard does not expect to do the actual work of catching dogs. He expects to employ assistants to do that part. But he does expect to oversee these assistants and to see that the work is done right, and that if a dog must be killed the job will be done with as much kindness toward the dog as is possible.

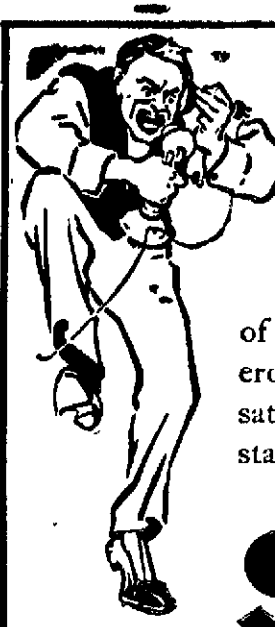

It means that the office will be run for the good of the dogs, and not for the individual benefit of the officeholder," says Mayor Zimman, urging Mr. Millard for the position.

Mr. Millard is president of the Nebraska Humane Society, and treasurer of the national organization, and it is to further the aims of the humane societies that he has asked to be appointed to the comparatively ignoble position of city dogcatcher.

Mr. Millard has already done much for the dogs of Omaha. He was at the head of a movement which gave the city the finest dog pound in the country, the structure being built upon the lines of a Greek temple and having a mortuary chamber where the animals could be quickly killed by gas.

The premium on gold in Haiti now varies between 400 and 500 per cent.

## AN ATTEMPT AT BRIBERY

Alleged by the Wisconsin Insurance Commissioner.

### APPEARS BEFORE COMMITTEE

Asserts the Secretary of State Made an Effort to Influence His Decision in an Insurance Case—Denial Made by the Secretary, Who Testifies in His Own Behalf.

Milwaukee, May 17. — State Insurance Commissioner Host testified before the legislative insurance investigating committee of Wisconsin that June 16, 1903, the day on which the hearing in the case of the state of Wisconsin against the Equitable Life Assurance society for a compulsory distribution of the surplus of that company to Wisconsin policy-holders was to be held by him, Secretary of State Walter L. Houser entered the insurance commissioner's office and said that if Mr. Host would render a decision in accordance with a slip handed by Mr. Houser to Mr. Host, which would have been a decision favorable to the Equitable company, that the Equitable Life Assurance society would give \$2,000 toward a campaign fund for a renomination of the state officers in the succeeding campaign. Mr. Host testified that he told Mr. Houser that he would think the matter over. His decision was against the Equitable Life Assurance society, which afterward took the case into the courts and there obtained a rule adverse to Mr. Host's order for a compulsory distribution of the surplus on deferred dividend policies at least once in five years.

Insurance Commissioner Host further testified that Robert Luscombe, who has for years represented eastern insurance companies before various legislatures, telephoned to him three times from Chicago, between June 16 and July 31, 1903, the latter having been the day on which Mr. Host rendered his decision, and asked Mr. Host to come to Chicago, saying he thought he had an argument which would convince Mr. Host that the statute in question was not compulsory.

Frank Bryant, a clerk in the office of the insurance commissioner, testified in corroboration of Mr. Host that on June 16, 1903, he entered the office of Mr. Host just as Secretary of State Houser was leaving, and that Mr. Houser appeared very much excited. Mr. Bryant said Mr. Host showed him the Equitable slip introduced in evidence and told him of the offer which the secretary of state had made.

Secretary of State Houser took the stand in his own defense and admitted that he and Luscombe were friends, and declared that Luscombe had handed him the written slip of paper which he had handed to Mr. Host, and requested that he give it to the insurance commissioner. Mr. Houser, however, emphatically denied that any mention was made of a campaign fund contribution at that time. Mr. Houser admitted that he had asked Mr. Host to request contributions from insurance companies for a political campaign fund against Congressman Joseph W. Babcock in the Third Wisconsin district, and said Mr. Host had not taken unkindly to the suggestion, but said he would think the matter over. Both Secretary of State Houser and Commissioner Host have been among the most prominent LaFollette men of this state.

Secretary Houser is running for a third term, and in his testimony he intimated strongly that he considered the charges a campaign move against him.

In rebuttal, after Mr. Houser's testimony, Insurance Commissioner Host declared Mr. Houser had never approached him in regard to obtaining insurance campaign funds against Mr. Babcock.

### CORN FESTIVAL

To Eclipse Anything of Like Nature Ever Held.

Chicago, May 17. — Arrangements are being made by the ways and means committee of the Chicago Commercial association to hold a corn festival in Chicago this fall which will eclipse anything of a like nature ever undertaken in the middle west. According to the present plans the exposition will be an annual event. The plan contemplates having afternoon and evening exhibitions for two weeks from Sept. 29 to Oct. 13, at Tattersalls. The amount to be offered in prizes will total several thousand dollars. The best bushel of corn shown at the festival will draw a \$3,000 premium.

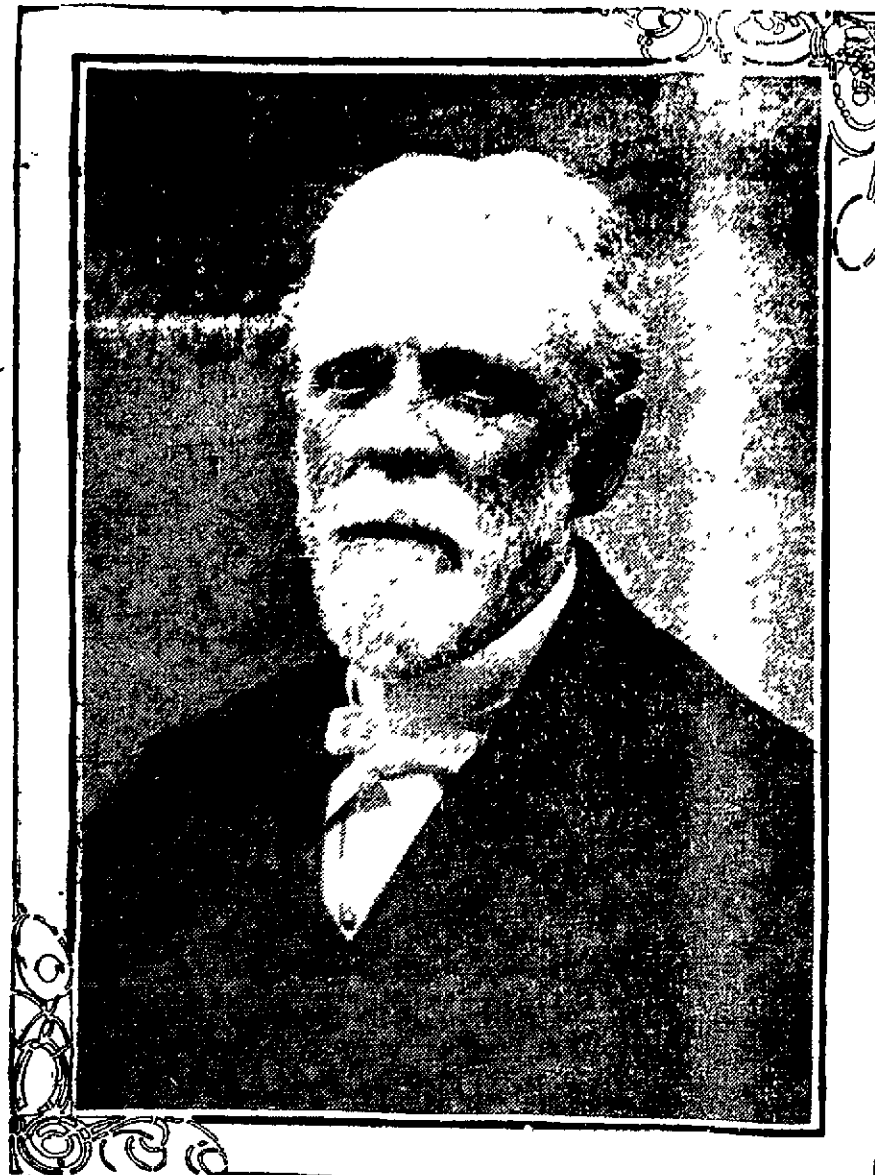

### Cuban Amnesty Bill.

Havana, May 17.—After a long discussion the senate passed the house bill granting amnesty to all who have engaged in revolutionary attempts, but amending it so as to include in the amnesty only culprits whose acts were committed between Sept. 23 and Dec. 1, 1901. This excludes the participants in the Cienfuegos trouble of Sept. 22, 1905, and the Guanabacoa outrage of Feb. 2, 1906.

## CALVANISM'S FOE HURLS DEFIANCE.

Rev. Samuel T. Carter

FOLLOWING CRAPSEY TRIAL PRESBYTERIANS MAY ARAIGN THE REV. D. R. CARTER.

New York, May 17. — As the court of last resort in the Presbyterian church, the General Assembly, this week will take up, if it dares, the case of the Rev. Dr. Samuel T. Carter, retired, who for many years had fomented rebellion against the Westminster Confession. Presbytery and synod and most of his brethren for the last two years have been seeking to evade any discussion of Dr. Carter's views before an ecclesiastical tribunal. A man who speaks of the God of the Westminster Confession as an idol of man's invention as truly as any worshipped at Pekin, Delhi or in Africa, must, however, in the opinion of the conservative members of the church, be dealt with in accordance with rigid discipline.

The "Carterites," the dissenters from the views of those very dissenters who helped make the Westminster Confession, are getting stronger every year. There are few presbyteries but who would not regret it if the venerable and mild mannered chief rebel were brought to trial. The Presbytery of Nassau has been looked upon by those of ultra Calvinistic learning as a veritable hotbed of heresy, last week decided to pass the case of the Rev. Dr. Carter to the General Assembly of the church, which will meet tomorrow, May 17, in Des Moines, Iowa.

Although the chief insurgent is

### Y. M. C. A. LECTURES

The Y. M. C. A. management is pleased to announce that they have secured Dr. A. H. Lathrop of Johnston for two Sunday afternoon lectures, the last two Sundays of this month. Dr. Lathrop is one of the most popular speakers the Y. M. C. A. has ever had. Very many will remember with great pleasure the series of addresses which Dr. Lathrop gave about a year ago while he was pastor of the M. E. church at Granville, and will be glad for another opportunity of hearing him. The subjects of the two lectures will be:

gentle of manner and speaks in a musical, well modulated voice, he has a will of iron and for the last fifteen years has been making every known variety of trouble between the Presbyterians and their Westminster Confession. In the church he is known as the "Father of Revision."

He was the pastor of a church at Huntington, L. I., in 1889, when he went to the Presbytery at Nassau an avowed, afterward duly forwarded to the General Assembly, which asked that the chapter in the confession of faith relating to the decrees of God be revised.

The Nassau Presbytery was the only body which made the request and the whole affair was tabled. The father of revision quietly organized his forces, and in 1900 fourteen presbyteries had joined the revision movement. The trial of the Rev. Dr. Charles A. Briggs, of the charge of heresy and his subsequent admission to the Episcopal church, checked the revision campaign for several years, but the Carterites and those of similar views were busy all the while. The General Assembly in 1903 actually consented to the revision, and some important modifications were made. Then came the struggle for the "Brief Statement," which, although its friends professed that it was merely an epitome of the revised document, was in reality an opening wedge for still more liberal ideas.

Money Also Said to Have Been Used With the Object of Securing Better Facilities From the Corporation. Important Witnesses Before the Interstate Commerce Commission.

Philadelphia, May 17.—Three important witnesses were heard during the inquiry of the interstate commerce commission into alleged discrimination by railroad companies in the distribution of cars to operators in the soft-coal fields.

Interesting testimony was offered by George W. Creighton, superintendent of the Pennsylvania division of the Pennsylvania railroad, R. K. Cassatt, son of President Cassatt of the Pennsylvania railroad and eastern manager of the Keystone Coal and Coke company, and John M. Jamison of Greensburg, Pa., president of the Jamison Coal and Coke company. Mr. Creighton admitted that he held stock in several coal companies, and that the stock had been presented to him. Mr. Jamison testified that his company had presented Pennsylvania railroad officials with stock in his company, with the object of securing better treatment and facilities from the corporation. He also said that Robert Pittman, now assistant to President Cassatt, had declined a proffer of stock, saying that he preferred the money. Mr. Jamison bought the stock back from him for \$5,000.

R. K. Cassatt told the commission that at one time, when the Pennsylvania Railroad company was suffering from a scarcity of coal cars, it had relinquished its claim to 500 cars ordered from the Pressed Steel Car company and that the cars had been purchased by the Keystone Coal and Coke company. Another interesting witness was G. W. Clark, Pennsylvania railroad car distributor at Altoona. He told of having received monthly a check for \$50 from Captain Alfred Hicks, a mine operator, and stated that he did not know why the money was sent to him.

The North American says: "Circumstantial reports that Alexander J. Cassatt has determined to resign the presidency of the Pennsylvania Railroad company in consequence of the startling disclosures in the railroad coal investigation reached the interstate commerce commission. It is said that before leaving for Europe last week Mr. Cassatt told some of his closest personal friends that he has been grossly deceived by subordinate officers of the Pennsylvania railroad concerning the actual facts and conditions in the management of the company. These intimate friends were assured by Mr. Cassatt that he had relied upon statements made to him which, in the light of recent developments, have proved false."

### CONFERENCE

Between Coal Operators and Miners of the Southwest.

Kansas City, May 17.—It is probable that the coal strike in the southwest will end in a few days as the result of an informal conference held here between representatives of the southwestern Coal Operators' association and of the United Mine Workers. W. C. Perry, president of the southwestern Coal Operators' association, called a meeting of the executive committee of the operators and the representatives of the mine workers paid the assembled operators a friendly visit. After a brief conference it was decided that a conference should be held here Monday to arrange the terms of an agreement.

### A Ruse That Failed.

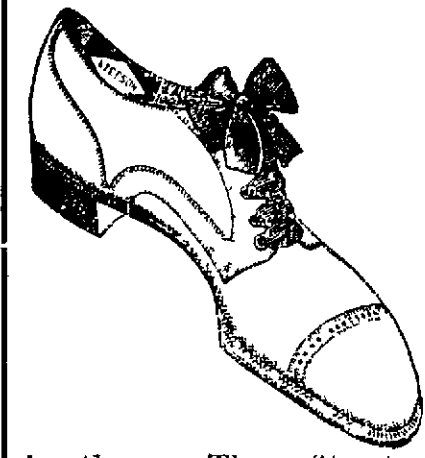

St. Louis, May 17.—John Dineen, policeman, and witness in a police court case, was convicted of perjury and sentenced to two years in the penitentiary. Dineen's defense was that when the oath was administered to witnesses he stooped over and tied his shoestring and thereby avoided raising his hand and taking the oath, and therefore he was not a sworn witness. He testified that it was a common practice of policemen to bend over and fumble with their shoestrings when they wished to keep from being sworn.

### Headless Body Found.

Granite City, Ill., May 17.—The headless body of a man was found in a cesspool in the rear of a saloon not far from where John Hickey, an overland traveler to Oklahoma, was sand-bagged and killed last week. The body was brought to an undertaking establishment here. The absence of the head, it is believed, indicates that the man was murdered by an injury to the head, and it was removed to prevent identification. No other marks of violence were found.

Captured in British Territory. Berlin, May 17.—The German consul general at Cape Town cabled the German colonial office that the Cape police had captured Morongo, the leader of the rebellion in German Southwest Africa, and several of his warriors, in British territory and taken them to Uppington, Cape Colony.

New Castle, Pa., May 17.—In the first extra inning game on the home grounds New Castle took Zanesville over yesterday for a 4 to 5 victory in 11 innings. Except in one inning neither Jackson nor Stewart were touched at all hard. Four hits for Zanesville in the fourth and the same number for New Castle in the next were the off innings. Stewart, although hit hard, kept the bingles scattered and it was not until two were down in the final inning that New Castle could bunch them. Hardesty Roasted

BY BOTH TEAMS

A dispatch to the Zanesville T-R from New Castle says:

No less than four members of the Zanesville team were fined by Umpire Hardesty during the game here yesterday afternoon. Captain James Cooper drew a fine of \$10 for disputing the umpire's decision, and Hurling, Lauson and "even" Manager Drumm himself drew fines of \$5 each.

The condition of things has reached such a stage that both the New Castle and Zanesville teams will enter protests to President Morton, asking that Hardesty be removed. Managers Drumm and Stetler expressed themselves in no mild terms last night regarding the work of the umpire.

Drumm, it is said, will not allow him on the Zanesville grounds next Sunday when he is scheduled to umpire the game. So bad were some of the decisions during the game at New Castle that even the patrons at the game roasted him. All of the local papers have been after him, also.

The fines imposed on the Zanesville players today will aggregate \$25 which together with those imposed on Cooper and Ingerton Monday will make a total of \$35 in fines assessed within the past three days.

New Castle papers are also roasting Hardesty, but until some town other than New Castle or Zanesville kicks, we won't believe Hardesty is wrong.

New Castle Gets

"RUDY" RUDOLPH

Fast Out Fielder With Drumm's Moguls is Sold to Stetler of the "Nocks."

New Castle, Pa., May 17.—The deal was completed last night whereby Outfielder John Rudolph of the Zanesville team becomes a member of the New Castle team. Manager Stetler of New Castle and Manager Ferd Drumm of Zanesville arrived at terms late last night.

Rudolph was a member of the Niles team last season and is considered a strong man with the stick, although he has not shown any great ability with it this spring. Manager Stetler became impressed with his work during the games here and at once opened negotiations for him. Rudolph joined the team today.

Massillon Wants Sunday Games.

Youngstown, May 17.—The Sunday games of the Mansfield team may be transferred to Massillon. An offer has been made from there to Manager Carl McVey and he may accept the proposition. The interference of the ministerial association at Mansfield is the cause.

Strike-Out Record.

Fourteen is the strike-out record in the O-P league so far. Jackson of New Castle, turned the trick on the Lancaster bunch, while Pitcher Linke of Newark, did the same thing

to the Akron batters one week ago last Sunday. Kaiser Wilhelm of the Moguls, is up pretty high, having breezed on less than 11 New Castle batters and allowed them but one hit.

Denison Defeated

AT DELAWARE

Pine, of Newark, Denison's Star

Twirler, Was Touched Up by

Ohio Wesleyan.

Delaware, May 17.—Ohio Wesleyan girls and boys jubbled late yesterday afternoon and all evening over the victory, 7 runs to 6, which the "varsity" easily took from the Denison team.

Captain Webb is a bigger hero than ever. Didn't he strike out 13 visitors by use of his snaky curves? On the outside he pounded home three runs and scored once himself.

Yet Webb had to depend on his support in four innings. His helpers worked cleanly in the ninth only when the situation was such that one run would have brought Denison's team up even.

In this round Clelland made a good stop and throw to get Hunt. Secrist speared Allen's hot bounding drive with one hand and First Baseman Read wound up the play in fine style by digging his third baseman's low throw out of the dirt.

Denison made half her runs by taking long chances on the bases. Catcher Baker of Wesleyan was throwing poorly. Twice he made costly pegs. One which let in two runs, would never have been started had the young fellow used good baseball sense.

The home folks were quite nervous in the seventh when Livingston and La Rue followed Green's smacking hits with safe bunts. Secrist failed to handle McKibben's tap and Green counted the run that left Denison but one behind.

Webb fanned Pitcher Tyler with the bases full and Anderson sent a drooping shot to Mar. The score:

Granville Wins Game.

Granville, May 17.—Zanesville High lost to Granville High here yesterday 13 to 0. The visitors could not hit and fielded miserably, while Granville put up an errorless game. Jones allowed only three hits and accepted 11 chances in the field. Newark High plays here Friday at 4 p. m., and the Granville boys expect to even up their 2 to 0 defeat of last year. The score:

Second Denison

WANTED TO PLAY

CHAMBERS-WEBBER

The Zanesville Times-Recorder says: The scheduled game between the Zanesville High and Second Denison teams, which was to be played at Granville yesterday, did not come off because the members of the Denison team wanted Chambers to pitch for them. Chambers, who was one of the greatest college pitchers in the state, could not sign eligibility rules this year which were very stringent toward professionalism. As a consequence he could not pitch for Denison and is now pitching professional ball for Mt. Vernon. The second team also wanted to run in "Dutch" Weber, who used to catch Chambers before he signed with Mt. Vernon. There was no game.

The High school bunch was told that they would either have to play against Chambers and Weber or pay their own transportation, thus the High school team was forced to pay all the expenses of the trip in addition to being kept out of a game.

The actions of the Denison team in wanting to pitch Chambers shower very plainly that they were afraid that the High school would repeat the 10 to 3 score given them last Saturday. In fact, the collegians narrowly averted a shut out last Friday, and they were determined to "load for bear" this time to make sure that such a calamity would no occur.

## DREAM OF FAIR WOMEN TONIGHT

WOMAN'S CIVIC IMPROVEMENT SOCIETY WORKING WITH COMMITTEES.

Something of What the Women of Newark are Trying to Do. Entertainment.

The Woman's Civic Improvement society of Newark recognized 11 avenues through which its usefulness should be expressed in the city. These are represented in the standing committees, namely: Finance, Humanitarian, Railroad, Park Preservation of Natural Beauties, Sanitary, Street Public Nuisance, Junior Civic League, Education, Public Library. There is a wide field of usefulness for all these committees in Newark, and their effort will be productive of large results to the citizens of our town will aid and support the society. These committees cannot leap at once into active work but have been largely forecasted to broad results in the future.

The committee on education will concern themselves with the schools and will endeavor to introduce industrial departments so that through manual training, our boys may early in life be trained for the trade nature has fitted them for, and our girls may learn cooking, house work, sewing and dressmaking. The time should not be far distant when Newark will follow the lead of Toledo, and other cities, and cause the curriculum of public instruction to thus bend to the needs of the individual.

The Junior Civic league has been organized under their able chairman and already the children have in some instances cleaned the premises around the adjoining alleys and have made school gardens. Twenty-eight hundred children have signed the following little constitution. The women of the society feel that this grand result is ample compensation for the effort they have made.

**CONSTITUTION.**  
The name shall be the Junior Civic League.

We, the undersigned, promise to help keep the city clean by not throwing papers on the street, alleys or yards; by not marking on fences or buildings; and by trying to keep others from doing so.

We also promise to pick up at least one piece of paper every day and to do all we can to keep our yards and alleys clean.

**PUBLIC LIBRARY.**

Mr. Carnegie has signified his willingness to give a building for a public library providing a suitable lot can be obtained and an income proportionate to the capacity of the library can be provided. The committee on public library will concern themselves with this improvement to Newark. The street committee is organized and is ready for work, and all other committees are seeking their field of usefulness. The finance committee occupies the most difficult position, and it is the finance committee that make this appeal to public sentiment and to our public spirited citizens.

It is the province of this committee to create a fund with which to begin the work outlined. To this end the have agreed to co-operate with the "Erhart Entertainers," who will present this Thursday evening, a beautiful representation of Tennyson's "Dream of Fair Women," to be followed by musical specialties. Mrs. Erhart, the fair dreamer into whose vision of dream glides the heroic women whom Tennyson immortalized—women who have made history and have lived in poetry and song—Cleopatra, Helen of Troy, Iphigenia, Jephtha's Daughter, Fair Rosamond, Eleanor of England, Evangeline, Sister of Mercy, Sir Thomas Moore's daughter, Joan of Arc, Elionor of France.

The Erhart company have their own scenery and their own costumes which are beautiful, artistic and correct from an historic standpoint. Mrs. Erhart of the Curry School of Expression of Boston, has been pronounced by the distinguished head of that school to be the most graceful exponent of Delsarte that he had seen in the United States. The children, misses and young ladies who are now under her training are recipients of instruction which is conducive to liberal education and which should be appreciated by their parents. Marie Erhart, the beautiful, talented little miss of six years will appear in special numbers. She is a universal favorite with the public.

There will be musical specialties.

**YOUR HAT**

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that is "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

dances, choruses of "Innocent Maids," "Goo Goo Girls," "Snow Maldives," "Poppy Girls," "A Chinese Love Song," represented by a chorus of six young ladies and six young gentlemen. The celebrated and spectacular Snow Carnival, etc. With the exception of Mrs. Erhart and the charming Little Marie Erhart, the talent is furnished by Newark young people. The sale of seats has not been proportionate to the expectations of the society, or to the excellence of the projected entertainment. Will not the Newark public fill the Auditorium to its utmost capacity this evening, and by their patronage assist the Civic Improvement society to beautify and improve Newark? (Signed)

## DAY'S BUSINESS IN COURT HOUSE

**In Common Pleas.**  
Thos. M. Jones vs. Barclay J. Jones et al, the land described in petition reported sold at private sale. The axes and costs were ordered paid. Flory & Flory; Hunter & Hunter, Glibler & Montgomery, Jones & Jones.

The court was engaged today in hearing motions and demurrers on the motion list.

**Probate Court.**  
The case regarding the matter of the hearing of the exceptions to the account of James F. Lingafelter, administrator of the estate of Margaret Shaugnessy, was continued in the probate court until 9 o'clock Friday morning on account of the absence of Attorney Carl Norpell who represents the bondsmen in the case.

A hearing was had in the Probate court in the case of John T. Monroe, who was adjudged a lunatic some time ago and placed under guardianship. On the testimony of the medical witness, Dr. I. N. Palmer, the court was satisfied that the ward had been restored to reason and the guardianship terminated, and it was so ordered.

Mary C. Jones, as executrix of the estate of Benjamin E. Jones, has filed its first and final account.

S. L. Redman, assignee of the estate of D. S. Beaumont, has filed his first and final account.

Alice C. Pryor executrix of the estate of Thomas E. Pryor, deceased, has filed her first and final account.

Daisy Jacobus a patient from Licking county in the Columbus State Hospital, was granted a trial visit on April 21.

Probate Judge Brister has been notified of the death of Joseph Cassidy, a Licking county patient in the Columbus State Hospital, which occurred on May 3, 1906.

Probate Judge E. M. P. Brister has received word from Superintendent George Stockton, of the Columbus State Hospital, that Merile DeWolfe, a Licking county patient, had elapsed from that institution on April 26, 1906.

**Demurrer Filed.**

In the case of Margaret G. Cherry vs. Eva S. Bloomer, administratrix, et al, the plaintiff has filed a demurrer to the third defense and claims in the answer and cross petition of the defendant for the following reasons:

First. That this court has no jurisdiction to hear and determine the matter involved.

Second. That it does not state facts sufficient to constitute an answer, counter claim or set off to the plaintiff's cause of action and that it does not state facts sufficient to entitle the defendant to any relief. Kibler & Montgomery, attorneys for the plaintiff.

**Brief on Demurrer.**

In the case of Margaret Cherry vs. Eva S. Bloomer, attorneys Kibler & Montgomery have filed a brief to the third defense, claiming that it does not show that the provisions of the Revised Statutes of Ohio, section 6053, have been first complied with.

**Reply Filed.**

In the case of Margaret G. Cherry vs. Eva S. Bloomer, administratrix, et al, the plaintiff by her attorneys, Kibler & Montgomery, has filed her reply to the second defense and claim of the answer and cross petition of Eva S. Bloomer, administratrix. She says that she is not indebted to the administratrix for the sum of money claimed, nor for any part thereof, and says that each allegation in the second part of the answer and cross petition of the administratrix is untrue. Plaintiff asks judgment as prayed for.

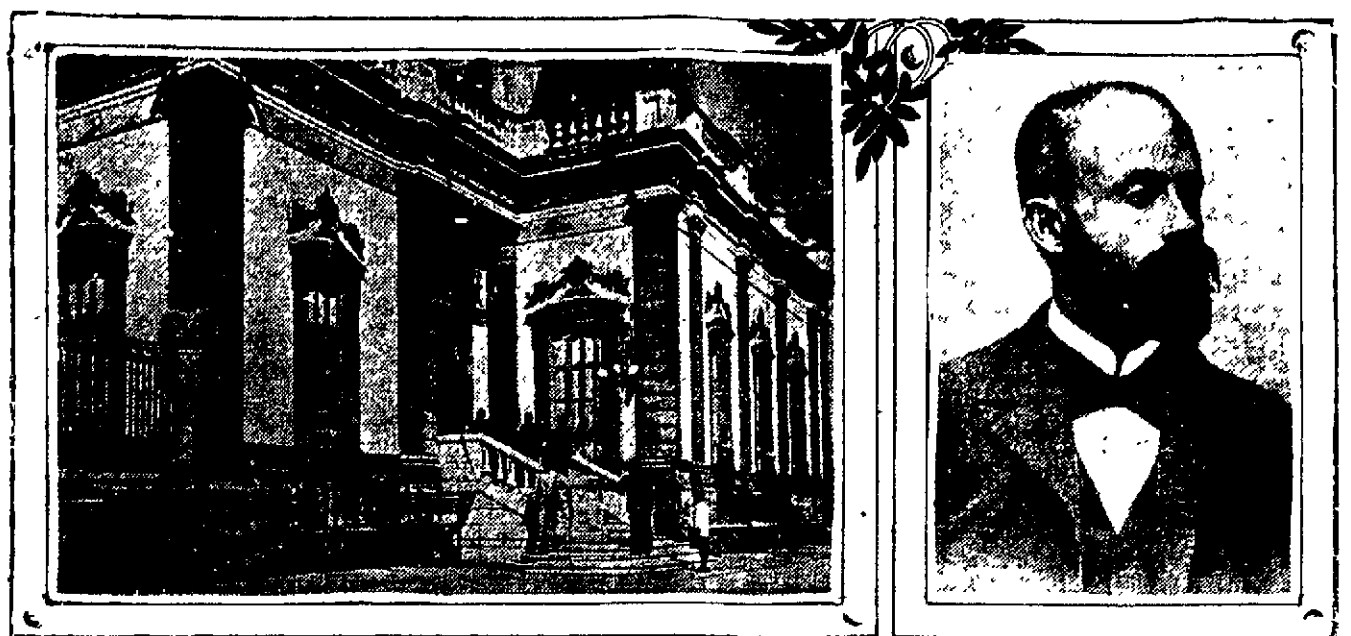

**In Squires' Courts.**

James Lawrence was arrested on a warrant sworn out before Justice Lake by Raymond Cooper, who charged him with assault and battery. Lawrence brought before the justice, entered a plea of not guilty and was bound over to the Common Pleas court in the sum of \$50.

Jack Myers was arrested on a warrant sworn out in Justice Lake's court on the charge of committing an assault and battery on Annie N. Barnes. Myers was taken before Squire Lake, entered a plea of guilty and was fined \$3 and costs, which he paid.

## VENEZUELA'S FORMER PRESIDENT, NOW ABROAD, AND THE OFFICIAL HOME.

Main entrance to the Palace of Miraflores, Caracas, where President Castro lived. Photo by General Castro.

Port of Spain, Trinidad, May 16.—That an Andean Indian, devoid of education, should jump from the bush to the Presidency and make the record Cipriano Castro has made, is as much of an amazement to Venezuela as to the great Powers he has treated with arrogance and successful defiant diplomacy.

The key to his power at home is the abject fear he has instilled into the hearts of his countrymen; of his escape from foreign foes, a craftiness of nature and strength of will that made wrong seem right and bent the very circumstances of seeming disaster to his purpose. Possessed of some military skill, he imagines himself a greater general than Napoleon. He is quite convinced that no more astute statesman than he exists.

For six years he has wigged the governments of the earth with impunity, despoiling their citizens and driving them from the land, sounding moral platitudes the while, always taking advantage of the Monroe Doctrine or the moment when the insulted

nation had more weighty matters to consider to perpetrate some particularly theatrical outrage.

That an untutored mind should divine these psychological moments seems so improbable that Castro is often accused of relying on the judgment of a riper intellect. It is often advanced that there is another who plans the course over which he alone dare steer his ship of State. If so the name of this Tallyrand is unknown to Venezuela. There the bold dictator is known to be incapable of taking advice, and is quite certain to send to jail the one who offers it.

Some attribute to him just plain, good luck, but his own belief is widely shared, that he is the man of destiny, ordained to drive the hated foreigners from his land and thus become the savior of South America, by allowing all the other republics how they may demonstrate their power and independence to nations that collect debts with cannon.

It is evident from a resident in Venezuela that Castro's mind, absorbed in schemes to drive the foreigner out and keep his money in, has neglected the development of his own country beyond the formation of vari-

ous monopolies for himself and a chosen few.

This has concentrated the ready money in the hands of those connected with the government, forcing the otherwise wealthy and once prosperous planters, and business men to allow their fine estates to fall into ruin. No repairs are being made to houses in town or country save its owner, he a government official. No public works are being undertaken or kept up.

Bridges, streets, buildings, walks, roads and parks, all are reproachful to the eye, and the people, after tearing down the statues of Blanco, who deposed their treasury and lived abroad often wish for the days when he gave them these things and took a pride in them. The change Castro has wrought in their surroundings and the growing indifference to them was voiced by a Venezuelan when I pointed out that the cemetery near Caracas would be a beautiful spot if it were not marred by broken paths, heaps of stones, and rubbish.

"Yes," he replied looking wearily around and speaking low, "it was once a lovely spot, but since Castro has been President even the dead have grown careless."

### WILL DISESTABLISH CHURCH OF ENGLAND

London, May 17.—The disestablishment of the English church is becoming decidedly possible as an outcome of the attempt now being made by the liberal government to amend the present education law. Under the existing statutes numerous public schools which were supported by local taxes are under the control of the Church of England and all teachers are compelled to pass the Church of England's religious test before receiving appointment and the scholars are taught the Church of England creed.

The Liberals have introduced a bill in Parliament placing all public schools under direct local governmental control and abolishing religious tests as the first step in the direction of complete secularization similar to that which obtains in America. The Church of England is fighting the bill with medieval fury and declines to compromise on any point. The church says it must have a voice in the

school management. The church has enlisted the support of the conservative party, but most of the fighting will be done by the bishops.

The government can easily pass the bill through the house of commons, but the bishops and the conservative nobles have a majority in the house of lords and the government has been informed that the house of lords will throw the bill out. The government retorted by the declaration that if this is done the cabinet will resign and appeal to the country for a new general election which if it favors the liberals, will be accepted as an indication that the country is ripe for disestablishment. Churchmen are becoming uneasy at this for the agitation for disestablishment would be greatly strengthened. The education bill has thus assumed a new interest which may make the most important legislative measure since the reform bill introduced in 1839.

#### SHIP WILL BE BUILT.

Washington, May 17.—The House passed the naval appropriation bill for a \$10,000,000 battleship. It is expected to be the most powerful warship in the world.

### BIG SUM PAID FOR C. B. L. & N.

MINORITY STOCKHOLDERS GET  
THREE MILLION DOLLARS  
FOR INTERESTS.

This Means a Consolidation With the  
C. N. & Z. and a Merger With  
Schoepf Syndicate.

Minority stockholders of the Columbus, Buckeye Lake and Newark Traction company were from Missouri with regard to the proposition of the Schoepf-Dolan-Morgan-McGowan syndicate, owners of the local street railway and of the Columbus-Zanesville Interurban, which was sold recently, after a lengthy conference during which it was at last voted to sell the road.

A good price has been secured for the road, stockholders of the C. B. L. and N. railway receiving \$2,500,000 in common stock of the C. N. and Z. to go with \$500,000 in bonds, or an equal amount in preferred stock in the C. N. and Z.

No change in the operation of the C. N. and Z. is expected to result, the Schoepf syndicate merely increasing their earnings and reducing running expenses of the Columbus-Zanesville road in the combine. The deal consummated yesterday has been pending for some time past.

The proposition of the syndicate was to sell the Columbus, Buckeye Lake and Newark Traction company to the Columbus, Zanesville and Newark Traction company and to issue new preferred stock of 6 per cent to take the place of the old preferred stock of \$500,000 of the Columbus, Buckeye Lake and Newark traction line, but the new issue of \$500,000 is to be on the property of both roads, which now have \$1,200,000 of preferred stock, and objection is made by the minority stockholders because this decreased stock will be second to the first mortgage on the combined roads which would amount to \$6,000,000, and \$4,000,000 issued and \$2,000,000 held for betterments. It is also contemplated to issue \$1,225,000 of new bonds on the combined properties of the two roads, to take the place of the same amount of bonds on the Buckeye Lake a further step is to make the Indiana Columbus and Eastern Traction company the holding company to finance the deal.

### ATTEMPT MADE TO WRECK TRAIN

GUNS AND STILLETOS POINTED  
AT HEADS OF ITALIAN  
LABORERS.

Who Were Forced to Tear Up Several  
Rails on the B. & O. Near  
Attica.

Tiffin, O., May 17.—With loaded guns and revolvers pointed at their heads and with daggers and stilettos menacingly flourished over them, 23 Italian laborers were forced to tear up several rails on the Baltimore and Ohio railroad near Attica last night in an attempt to wreck the fast east mail train.

As they pulled the spikes and lifted the rails a hundred or more dissatisfied fellow countrymen who held the weapons made more furious by a day's belated muttering curses and threats did not hasten their work.

Only the timely discovery of E. J. Bell time keeper of the road, saved the lives of many people, passengers on the train which was brought to a standstill but a short distance from the misplaced tracks.

After being prisoners all night in a

special train the Italian laborers will be sent back to Chicago to stay. It is understood the men will be dismissed from the service there, but will not be prosecuted.

Three ringleaders have disappeared and the railroad detectives have failed to locate them. No further trouble is anticipated.

### MRS. M. H. PARTRIDGE

Former Highly Respected Woman of  
Granville Died in Columbus.  
Interment in Granville.

Granville, O., May 17.—Mrs. Marietta Hamilton Partridge, widow of the late Ebenezer Partridge, a formerly highly respected citizen of Granville, died at the home of her niece, Mrs. Mary Colton in Columbus, on Tuesday afternoon at 4 o'clock, of the infirmities of old age, she being 86 years old at the time of her death. The deceased was the stepmother of Mrs. Davies, wife of Dr. Davies of this place, and lived at the home of Dr. Davies until the death of Mrs. Davies about a year ago, since which time she has lived in Columbus. She is survived by one brother, two sisters and a number of nephews and nieces. The remains arrived in Granville this morning and the funeral services were held at the Presbyterian church, conducted by the Rev. C. L. Work. The interment was made in Maple Grove cemetery.

On Wednesday evening Miss Florence Nickels gave her graduating song recital in Recital Hall at eight o'clock, Miss Harford accompanying her on the piano. Miss Nickels' voice possesses a rare and sweet quality, purity of tone and unusual clearness. Her recital was well attended and very much enjoyed. The program was as follows:

My Heart Ever Faithful, Bach.  
Where the Beg Sips, Dr. Arne.  
Study in F, Panofka.  
Siet ich ihn gesehe.  
Er der Herrliche von Allen  
Ich kann's nicht fassen, nicht glauben.

Du Ring an meinem Finger  
Die Soldatenbraut, Schumann.  
Summer, Chaminade.

On Friday evening the boys of the Senior class of Denison university will give "Scenes from Life" and "In a First Class Hotel," in Recital Hall at 8 o'clock.

Miss Fannie Dodson of Columbus, who has been visiting friends and relatives here for the past week, returned home on Wednesday night.

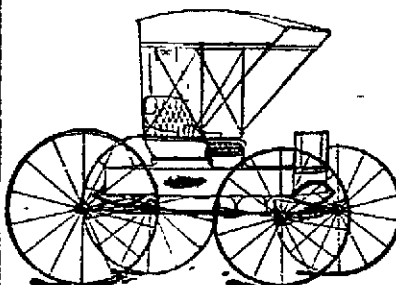

Mrs. Ethel Mason and little son, Harry, of Cincinnati, who have been visiting relatives and friends here for the past few days, have returned home.

On Saturday evening the young ladies of the Junior class of Denison university will entertain the young men of that class in Cleveland Hall.

### SYNDICATE WILL BUILD STATION

LOCATION FOR INTERURBAN  
TERMINALS HOWEVER, NOT  
YET DECIDED ON.

Will be Modeled After Indianapolis  
Station and Work May Begin  
This Year.

Columbus, May 17.—Columbus is to have an interurban station which will be in keeping with her importance as the greatest interurban center in the state. W. Kesley Schoepf yesterday made this statement at the meeting of the stockholders of the Buckeye Lake road.

Where this station will be located is not yet known as local conditions have not been studied. It may be Third street between Town and Rich streets and it may be in an entirely different part of the city. The location is a matter yet to be worked out. In speaking of a new station Mr. Schoepf said: "It is our intention to give our roads in Columbus as good terminal and station facilities as we possibly can. We will erect a new union station here but where it will be located I can not say. The options taken on South Third street were taken at the instance of Dr. Hartman and I believe were assigned to me for a term running two years. However, this location has not been decided upon. As yet we can not say where the station will be erected. That is a matter to be worked out and will be taken up as soon as we can get clear of this pending consolidation and the organization of our holding company."

"The Columbus station will be modeled along the lines of the traction station at Indianapolis and while it may not be as extensive as that it will be one to which Columbus can point with pride. It is also our intention to erect a fine station in Dayton and also in Springfield. All of these matters, however, will come up after our organization and reorganization work is completed. We hope to get busy on the Columbus terminal and station problem sometime this summer."

The statement of Mr. Schoepf that the site in Third between Rich and Town streets has not been definitely decided upon as the location for the Columbus station will be good news to those near the present station.

### UTICA IS READY FOR CONVENTION

Sunday School Workers of Licking  
County Will Meet There on  
May 24 and 25.

It is now only a few days until the Sunday school workers of this county will meet in convention at Utica. Next Thursday and Friday, May 24 and 25, is the time. The people of Utica are preparing for a large crowd and will entertain all who attend. If you expect to attend, send your name to Mr. Donald Kirkpatrick, Utica, O., chairman of the entertainment committee.

Trains on the B. & O. leave Newark for Utica, 8:10 a. m., 1:40 p. m.; leave Utica for Newark 7:05 p. m., 6:32 a. m., 11:42 a. m. If your school has not made an offering to the county and state work since last July, it ought to be sent in now that you, as a township, may be able to respond to the roll call at Utica with "Present; Paid." All money should be sent to the treasurer A. M. Dixon, Granville.

Remember next Sunday, May 20, as a special day of prayer for the work, and the coming convention.

Remember that the date is May 24 and 25. A cordial invitation is extended to all Sunday school workers to attend this convention.

A. M. DIXON, Secretary.

### BOYS JEERED HENRY BEATTY

Old Gardener Has Suffered From the  
Taunts of Boys For 15 Years.  
Arrests Made.

"For fifteen years I have suffered the taunts and jeers of a crowd of ruffians, old and young, who live in the South End. I have reached the limit and must ask for the protection of the law. I want three young men arrested for annoying me on South Second street yesterday afternoon."

Such in brief, was the complaint of Henry Beatty, aged 70 years, an old gardener, who lives on a small garden tract south of the city. Mr. Beatty swore to an affidavit which resulted in the arrest of Fritz Seizer, John Ripus and Geo. Graves, alias "Fence Graff." These men are charged with hooting and jeering Mr. Beatty and calling him nick names. They each entered a plea of not guilty to the charge and the hearing was set for Saturday morning at 9 o'clock.

Between 5,000 and 6,000 alcohol engines are now in operation in Germany.
